

HARDWORKING HERO: JOB 610

Road Runner. Why use a fuel-guzzler just to pick up a part from a supply house, shuttle a worker from site to site, or run errands when a street-legal Carryall 510 LSV are so much less expensive? The zero-emission electric vehicles cost just pennies a day to operate, make parking a breeze and get about 48 km (30 miles) to a full charge.

HARDWORKING HERO: JOB 555

Green power. Busy downtown areas can be a challenge. Congestion, pollution and limited parking can create issues for parking enforcement. The Carryall 710 street-legal LSV overcomes these issues and for just pennies a day.

CARRYALL 510/710

A THOUSAND JOBS. ONLY ONE
CARRYALL

VERSATILITY & RELIABILITY

Payload. Total Vehicle Capacity of up to 567 kg (1250 lb).

Street legal. Carryall LSVs can be driven on public streets in several countries. Check your country-specific laws.

Green. Reduce your carbon footprint and cut fuel costs with this sturdy electric vehicle.

Safety-equipped. Carryall LSVs come with all required safety equipment: headlights, tail lights, turn signals, 3-point safety belts, hip restraints and more.

Improved charging. The industry's only standard on-board high-efficiency charger with cord retractor. This new system operates on voltages around the globe, and tolerates voltage swings that would shut down lesser chargers.

More durable than steel. Carryalls are built on Club Car's exclusive lightweight, rustproof, air-craft-grade aluminum frame that's designed to be stronger than steel. Unlike competitive steel frames, it resists corrosion and retains resale value.

Fit-to-task utility. A one-of-a-kind bed box with an integrated track-based attachment system, optional tool holders, bed dividers and cargo tie downs increases versatility and saves floor space. So you can do more with less.

The best warranty in the industry. The industries longest standard battery, powertrain and bumper to bumper warranty.
